## 10k INTERMEDIATE - NOTES

### Work-out Descriptions

**Easy run** - Run relaxed and at a comfortable effort level. You should be able to have a simple conversation without being out of breath.

**Long run** - For the most part, your long run will be kept at an easy, relaxed effort, unless otherwise specified. You should be able to hold a conversation during your long run.

**Effort** - A fast paced interval. Aim to maintain the same speed throughout the duration of the interval, instead of starting fast and fading.

**Jog recovery** - Very easy jog in between fast efforts. Allows you time to recover prior to the next fast effort.

**Tempo** - A working pace where you are comfortably uncomfortable running. You are not going breathless and are able to answer simple questions, but unable to have a conversation.

**Undulating run** - An easy run on an undulating route. This helps to build additional strength even on an easy day. Maintain a consistent effort.

**X-train** - Cross training. Cycling, swimming, gym classes, pilates, etc. Enjoy your favourite work-out activity.

**Strength** - Staying strong is essential for success in running and can also assist with preventing injury. Pilates, at home strength, gym strength class, bootcamps, etc. are all forms of strength sessions you may enjoy.
